

## Hyland's

Introducing Hyland's Restful Legs, the first over-the-counter medication to calm agitated legs to help you rest. Hyland's Restful Legs contains six homeopathic ingredients to calm the creeping, crawling itch, the constant urge to move the legs, and leg twitches and jerks that occur during extended periods of repose. Like all of Hyland's homeopathic medications, Hyland's Restful Legs works gently without side effects. It also is safe to take with other medicines without drug interactions or contraindications.
